Cardiovascular MRI Tutorial: Lectures and Learning By Robert W. Biederman MD FACC FASA, Mark Doyle PhD, June Yamrozik BS RT(R)(MR)

This text/DVD package is ideally suited for training courses for cardiologists and radiologists seeking certification to perform and interpret cardiovascular MRI (CMR) examinations. The authors present 37 lectures that systematically explain all key aspects of CMR. Coverage begins with an overview of principles, equipment, and imaging methods and proceeds to imaging protocols and clinical applications. An Advanced Training section includes details of imaging techniques, vascular imaging techniques, specialized cardiac imaging, and artifacts.

The text and the PowerPoint lectures on the DVD complement each other in a unique way. The book mirrors the content of the lectures and provides full explanations of concepts that are well illustrated in the slides.

DVD for Windows (PC only; Mac is available upon request).

Jessie Loudermilk:

As a university student exactly feel bored to reading. If their teacher expected them to go to the library as well as to make summary for some publication, they are complained. Just little students that has reading's spirit or real their leisure activity. They just do what the professor want, like asked to go to the library. They

go to presently there but nothing reading seriously. Any students feel that reading is not important, boring along with can't see colorful pics on there. Yeah, it is being complicated. Book is very important for yourself. As we know that on this age, many ways to get whatever we want. Likewise word says, many ways to reach Chinese's country. Therefore , this Cardiovascular MRI Tutorial: Lectures and Learning can make you truly feel more interested to read.
