Forever . . . By Judy Blume

There's a first for everything.

When you build up something in your mind -- really imagine it, wish for it -- sometimes, when it actually happens, it doesn't live up to your expectations.

True love is nothing like that.

Especially not for Katherine and Michael, who can't get enough of each other. Their relationship is unique: sincere, intense, and fun all at the same time. Although they haven't been together all that long, they know it's serious. A whole world opens up as young passion and sexuality bloom.

But it's senior year of high school, and there are big changes ahead. Michael and Katherine are destined for another big "first": a decision. Is this the love of a lifetime, or the very beginning of a lifetime of love?

Editorial Review

Amazon.com Review

"Going all the way" is still a taboo subject in young adult literature. Judy Blume was the first author to write candidly about a sexually active teen, and she's been defending teenagers' rights to read about such subjects ever since. Here, Blume tells a convincing tale of first love--a love that seems strong and true enough to last forever. Katherine loves Michael so much, in fact, that she's willing to lose her virginity to him, and, as the months go by, it gets harder and harder for her to imagine living without him. However, something happens when they are separated for the summer: Katherine begins to have feelings for another guy. What does this mean about her love for Michael? What does this mean about love in general? What does "forever" mean, anyway? As always, Blume writes as if she's never forgotten a moment of what it's like to be a teenager.

Review

"A convincing account of first love."

-- *The New York Times Book Review*

Users Review

From reader reviews:

Tonya Hooper:

In this 21st centuries, people become competitive in every way. By being competitive currently, people have do something to make these individuals survives, being in the middle of the crowded place and notice by means of surrounding. One thing that often many people have underestimated this for a while is reading. Yep, by reading a reserve your ability to survive increase then having chance to stand than other is high. For you who want to start reading some sort of book, we give you that Forever . . . book as beginner and daily reading reserve. Why, because this book is usually more than just a book.

Catherine Kuntz:

Nowadays reading books become more and more than want or need but also turn into a life style. This reading behavior give you lot of advantages. Advantages you got of course the knowledge even the information inside the book in which improve your knowledge and information. The data you get based on what kind of guide you read, if you want send more knowledge just go with schooling books but if you want experience happy read one together with theme for entertaining including comic or novel. The particular Forever . . . is kind of guide which is giving the reader unforeseen experience.

Muriel Colvard:

Many people spending their time period by playing outside together with friends, fun activity with family or just watching TV all day long. You can have new activity to invest your whole day by studying a book. Ugh, you think reading a book really can hard because you have to use the book everywhere? It okay you can have the e-book, taking everywhere you want in your Smartphone. Like Forever . . . which is finding the e-book version. So , why not try out this book? Let's find.

Christopher Hartwick:

Do you like reading a guide? Confuse to looking for your favorite book? Or your book seemed to be rare? Why so many issue for the book? But just about any people feel that they enjoy intended for reading. Some people likes studying, not only science book but also novel and Forever . . . or others sources were given expertise for you. After you know how the truly great a book, you feel want to read more and more. Science reserve was created for teacher or students especially. Those textbooks are helping them to bring their knowledge. In other case, beside science e-book, any other book likes Forever . . . to make your spare time considerably more colorful. Many types of book like this one.
