Bullets and Brains By Andrew Nathan Wilner MD

Bullets and Brains is a collection of over 100 essays about people and their brains written by a neurologist and epilepsy specialist. These articles appeared over the last four years in two Medscape.com columns, “Wilner on Neurology” and “Epilepsy Notes,” as well as other special articles. Medscape.com is a division of WebMD, a leading provider of health information. Although written for a medical audience, most of these essays focus on the intersection of neurology and society and are easily accessible to the inquisitive reader. As one reader wrote, “I felt as if I was in a comfortable conversation over a good coffee with the author.”

Editorial Review

About the Author

Andrew Nathan Wilner, MD, FAAN, FACP, is a board certified internist and neurologist. He has a lifelong interest in writing fiction and nonfiction. He received the American Academy of Neurology's Creative Expression of Human Values Award (2001), the American Academy of Neurology's Journalism Fellowship for Excellence in Medical/Health Reporting (2008), and is the author of two books on epilepsy; *Epilepsy: 199 Answers*, 3rd Edition, and *Epilepsy in Clinical Practice*. His latest book is *Bullets and Brains*, a collection of essays on the intersection between neurology and society. Dr. Wilner is medical director of Lingkod Timog, a medical mission group that travels annually to the Philippines.

Users Review

From reader reviews:

Lori Morgan:

As people who live in the actual modest era should be upgrade about what going on or information even knowledge to make all of them keep up with the era that is always change and advance. Some of you maybe will certainly update themselves by examining books. It is a good choice for you but the problems coming to a person is you don't know what type you should start with. This *Bullets and Brains* is our recommendation to help you keep up with the world. Why, as this book serves what you want and want in this era.

Patricia Coburn:

Your reading 6th sense will not betray you actually, why because this *Bullets and Brains* book written by well-known writer we are excited for well how to make book which can be understand by anyone who also read the book. Written with good manner for you, dripping every ideas and producing skill only for eliminate your current hunger then you still uncertainty *Bullets and Brains* as good book not only by the cover but also through the content. This is one e-book that can break don't assess book by its include, so do you still needing a different sixth sense to pick this particular!?! Oh come on your reading sixth sense already alerted you so why you have to listening to yet another sixth sense.

Liliana Stevens:

In this period of time globalization it is important to someone to acquire information. The information will make professionals understand the condition of the world. The condition of the world makes the information better to share. You can find a lot of personal references to get information example: internet, newspaper, book, and soon. You will see that now, a lot of publisher in which print many kinds of book. Often the book that recommended for your requirements is *Bullets and Brains* this book consist a lot of the information with the condition of this world now. This book was represented how do the world has grown up. The language styles that writer require to explain it is easy to understand. The writer made some research when he makes this book. That's why this book ideal all of you.

John Yates:

Many people said that they feel uninterested when they reading a book. They are directly felt this when they get a half regions of the book. You can choose often the book Bullets and Brains to make your own reading is interesting. Your own skill of reading skill is developing when you just like reading. Try to choose easy book to make you enjoy to see it and mingle the impression about book and reading especially. It is to be very first opinion for you to like to open a book and go through it. Beside that the book Bullets and Brains can to be your brand-new friend when you're experience alone and confuse in doing what must you're doing of the time.
