Philosophy of Technology: An Introduction for Technology and Business Students By Maarten J Verkerk, Jan Hoogland, Jan van der Stoep, Marc J. de Vries

Philosophy of Technology: An introduction for technology and business students is an accessible guide to technology's changes, their ubiquitousness, and the many questions these raise. Designed for those with no philosophical background in mind, it is ideal for technology and engineering students or specialists who want to learn to think critically about how their work influences society and our daily lives.

The technological, business environment and daily experiences are the starting point of the book and the authors' reflect upon these practices from a philosophical point of view. The text goes on to present a critical analysis of the subject including development, manufacturing, sales and marketing and the use of technological products and services. The abstract ideas are made easier to grasp with a story-telling approach: a vivid history of the discipline and colourful portraits of the core thinkers in this domain, as well as four case studies drawing from various engineering disciplines to demonstrate how philosophy can and should influence technology in practice.

The first comprehensive introduction to this vibrant young sub-discipline in over 20 years, this is an ideal textbook for students of technology and engineering beginning a course or project in the philosophy of their subject.

Editorial Review

Review

'Philosophy of Technology deepens especially my appreciation for the work of the authors Verkerk, van der Stoep, Hoogland, and de Vries. Their insightful contributions to critical philosophical reflection on technology fully deserve the wider audience this publication will promote.' – *Carl Mitcham, Ph. D., Hans Jonas Chair at the European Graduate School EGS and Professor of Liberal Arts and International Studies, Colorado School of Mines, USA*

'This book is an interesting read for anyone interested in how philosophers have analyzed and interpreted the influence of technology on the modern human condition.' - *Peter Kroes, Delft University of Technology, The Netherlands*

'The authors' ability to introduce the topics of the field and engage readers in the discussion leads to a brilliantly executed work. One hopes that this title will advance the field by inspiring students to pursue many of the fascinating questions introduced.' - *B. Mitchell, independent scholar, CHOICE*

From reader reviews:

Donald Jones:

Spent a free time to be fun activity to accomplish! A lot of people spent their spare time with their family, or their own friends. Usually they performing activity like watching television, likely to beach, or picnic inside

the park. They actually doing same thing every week. Do you feel it? Do you need to something different to fill your current free time/ holiday? Could be reading a book could be option to fill your free time/ holiday. The first thing that you will ask may be what kinds of guide that you should read. If you want to attempt look for book, may be the publication untitled Philosophy of Technology: An Introduction for Technology and Business Students can be excellent book to read. May be it can be best activity to you.

Brian Paige:

Playing with family inside a park, coming to see the water world or hanging out with buddies is thing that usually you might have done when you have spare time, in that case why you don't try issue that really opposite from that. Just one activity that make you not experience tired but still relaxing, trilling like on roller coaster you already been ride on and with addition of knowledge. Even you love Philosophy of Technology: An Introduction for Technology and Business Students, you may enjoy both. It is fine combination right, you still would like to miss it? What kind of hang type is it? Oh seriously its mind hangout men. What? Still don't understand it, oh come on its called reading friends.

Rex Pelkey:

That guide can make you to feel relax. That book Philosophy of Technology: An Introduction for Technology and Business Students was colorful and of course has pictures on the website. As we know that book Philosophy of Technology: An Introduction for Technology and Business Students has many kinds or genre. Start from kids until teenagers. For example Naruto or Investigator Conan you can read and believe you are the character on there. Therefore not at all of book usually are make you bored, any it offers you feel happy, fun and loosen up. Try to choose the best book for you and try to like reading in which.

Carolyn Hoar:

Reading a publication make you to get more knowledge from it. You can take knowledge and information from a book. Book is composed or printed or highlighted from each source which filled update of news. Within this modern era like currently, many ways to get information are available for you. From media social such as newspaper, magazines, science publication, encyclopedia, reference book, novel and comic. You can add your knowledge by that book. Isn't it time to spend your spare time to spread out your book? Or just looking for the Philosophy of Technology: An Introduction for Technology and Business Students when you needed it?
