Editorial Review

Review

"The best introduction to the field."

-Literary Research Guide

"As a medievalist and a textuist, David Greetham is a Renaissance man. He has written the best comprehensive, modern, single-volume introduction to textual scholarship. Its range of reference is impressive, the style is lucid and engaging, and the product is scholarly and informative. I am especially grateful for Textual Scholarship because such is Greetham's achievement I will not toy with the notion of attempting such a work myself. There is no need for a similar work to be written this century and a long way into the next."

-Papers of the Bibliographical Society of America

"Everything you've ever wanted to know about textual scholarship is contained in this marvelous volume."

-Religious Studies Review

"This is a splendid book. Its aims are ambitious and its scope comprehensive. Its successes are significant... It is an honor to join in welcoming this book into the world of scholarship. It is a fine addition to the small shelf of first-class books on textual study."

-Text

"The descriptions of bibliographic methods and processes are as good as any I have read, and Greetham has the teacher's knack for anticipating and meeting in his audience the need for examples and definitions... Impressive... readable and worth reading...a fine source for information."

-Papers of the Bibliographical Society of Canada

From the Back Cover

What specifically should a reader expect to gain from consulting this book? An awareness of the process of textual scholarship; An ability to recognize in practice the major classes of identification described throughout the book; A familiarity with the basic vocabulary of textual scholarship and a sense of the appropriate domain of each of the skills represented by the terms; and finally through the active reading and criticism of textual editions and an understanding of the principles whereon they are constructed.

Users Review

From reader reviews:

Miles Towles:

Information is provisions for folks to get better life, information today can get by anyone with everywhere. The information can be a information or any news even restricted. What people must be consider whenever those information which is within the former life are difficult to be find than now is taking seriously which one is acceptable to believe or which one the particular resource are convinced. If you obtain the unstable resource then you obtain it as your main information you will see huge disadvantage for you. All those possibilities will not happen in you if you take Textual Scholarship: An Introduction (Garland Reference Library of the Humanities) as your daily resource information.

Kate Sutton:

Does one of the book lovers? If yes, do you ever feeling doubt when you are in the book store? Try to pick one book that you never know the inside because don't determine book by its handle may doesn't work is difficult job because you are afraid that the inside maybe not because fantastic as in the outside look likes.
