An Introduction to the Philosophy of Management By Paul Griseri

Electronic inspection copies are available for instructors

What and who is business for? What exactly is work and how can we distinguish it from other activity? Do businesses operate along different ethical lines from individuals?

This clear and accessible text introduces key philosophical concepts and ideas and applies them to fundamental issues in management and organizations. Written for business and management students with no previous knowledge of philosophy, this text will lead readers to question the basic assumptions widely made about business and management.

An Introduction to the Philosophy of Management is packed with case studies and examples which provoke thought and discussion. Coverage includes crucial topics such as business ethics, culture and leadership.

Key features:

- Boxed definitions of key concepts
- Real life case studies and examples
- Questions for Reflection
- Further reading

This text is essential reading for any business and management student wanting to think creatively.

Editorial Review

Review

'This innovative text offers a radically different approach to understanding the core management issues of today. I thoroughly recommend this book to all students of management'

A/Prof Mark Dibben

Head of the School of Management at the University of Tasmania, Australia

'Finally, a book that explores the important philosophical questions in management theory in a sophisticated and modern way. Griseri's book will help define an important field of management theory'

R. Edward Freeman

the Darden School, University of Virginia, USA

'This is a welcome, long overdue, groundbreaking textbook, at the intersection of modern organisational life with perennial philosophical debates on existence, knowledge, values, and human action....Anchored in solid logical foundations, this book invites us on a challenging journey from epistemologies of organising to meanings of work and principles of collective action, using the work of classical and modern thinkers - such as Aristotle, Descartes, Kant, Foucault'

Dr Cristina Neesham

Department of Management, Monash University, Melbourne, Australia

'This book is skillfully directed at invoking a wide audience to re-explore key issues such as: What is work or what can we 'know' about organisational life? The book is carefully built up by posing questions and offering deliberations from different angles - thereby activating our own processes of reflection'

Norma RA Romm

Research Professor, College of Education, University of South Africa, South Africa
