Chapter 16 - MAXScript (3ds Max 2010 Architectural Visualization (Advanced to Expert)) By Markus Boos

Quite often, 3ds Max's internal scripting language, MAXScript, can help you reach your aims in an elegant way. In the simplest case, you can “remote control” the application by feeding it written commands or playing back a procedure that you recorded using the mouse beforehand (hence, the name “scripting” language). In more advanced cases, MAXScript gives you the ability to create anything from small helper programs that solve a single problem to completely customized toolsets that are specifically adapted to your workflow or pipeline. These tools can then become integral parts in ensuring a smooth production and can give you the ability to react quickly to client changes or other unforeseen variables. Especially in large-scale projects, having scripting knowledge can be a huge plus.

The following sections will demonstrate that MAXScript programming, with its relatively straightforward design, is easy to comprehend—even for people with a non-technical background—and that it is unjustified to think of it as a “three-headed monkey” that is difficult to tame. I will introduce you to MAXScript by describing what it can do for you, after which you will start writing your first lines in the context of simple practical examples. Next, I will explain the most commonly used language features. After that, you will create your own little toolset to automate the setup of ambient occlusion and object matte render passes as well as write a small tool for managing scene materials and the material editor. Finally, this chapter provides an introduction to how to install and use existing scripts written by others. This chapter also gives an overview of where to find free and commercial scripts of interest to artists working in architectural visualization.

Editorial Review

Users Review

From reader reviews:

Melissa Wilcox:

Information is provisions for people to get better life, information presently can get by anyone in everywhere. The information can be a information or any news even a huge concern. What people must be consider while those information which is inside the former life are difficult to be find than now is taking seriously which one is acceptable to believe or which one the resource are convinced. If you get the unstable resource then you get it as your main information you will see huge disadvantage for you. All of those possibilities will not happen throughout you if you take Chapter 16 - MAXScript (3ds Max 2010 Architectural Visualization (Advanced to Expert)) as the daily resource information.

Nannie Hernandez:

Reading a reserve tends to be new life style in this particular era globalization. With reading through you can get a lot of information that can give you benefit in your life. Using book everyone in this world can share their idea. Ebooks can also inspire a lot of people. Many author can inspire their reader with their story or their experience. Not only the story that share in the books. But also they write about advantage about something that you need example. How to get the good score toefl, or how to teach children, there are many kinds of book that you can get now. The authors these days always try to improve their talent in writing, they also doing some study before they write with their book. One of them is this Chapter 16 - MAXScript (3ds Max 2010 Architectural Visualization (Advanced to Expert)).

Marsha Young:

The reason why? Because this Chapter 16 - MAXScript (3ds Max 2010 Architectural Visualization (Advanced to Expert)) is an unordinary book that the inside of the reserve waiting for you to snap it but latter it will jolt you with the secret the item inside. Reading this book beside it was fantastic author who have write the book in such awesome way makes the content within easier to understand, entertaining means but still convey the meaning fully. So , it is good for you for not hesitating having this ever again or you going to regret it. This excellent book will give you a lot of positive aspects than the other book have got such as help improving your skill and your critical thinking technique. So , still want to hold up having that book? If I had been you I will go to the book store hurriedly.

Lynn Gallagher:

This Chapter 16 - MAXScript (3ds Max 2010 Architectural Visualization (Advanced to Expert)) is brand-

new way for you who has intense curiosity to look for some information given it relief your hunger of information. Getting deeper you on it getting knowledge more you know otherwise you who still having little digest in reading this Chapter 16 - MAXScript (3ds Max 2010 Architectural Visualization (Advanced to Expert)) can be the light food for you personally because the information inside this particular book is easy to get through anyone. These books acquire itself in the form which can be reachable by anyone, yes I mean in the e-book contact form. People who think that in guide form make them feel sleepy even dizzy this reserve is the answer. So there is no in reading a guide especially this one. You can find actually looking for. It should be here for you. So , don't miss the idea! Just read this e-book variety for your better life and also knowledge.
