What Women Want: And How to Give it to Them! By Lauren Rodriguez

Woman is a language most men don't speak. There are so many books out there written by men about how to get women, but this book is written by a woman, detailing what we REALLY want. This book is your "get out of jail free" card when you screw up. It tells you how to casually bump into women, and what to say to get them to go out with you. It even tells you how you can determine whether or not a woman is interested in you or not. If the answer is no, it tells you how to make them interested in you. This book is not just good for the first date. It details the whole process, from one-night-stands, serious dating, and finally marriage.
