Crux: Nexus Arc Book 2 By Ramez Naam

Finalist for the 2014 Prometheus Award.

Six months have passed since the release of Nexus 5. The world is a different, more dangerous place.

In the United States, the terrorists – or freedom fighters – of the Post-Human Liberation Front use Nexus to turn men and women into human time bombs aimed at the President and his allies. In Washington DC, a government scientist, secretly addicted to Nexus, uncovers more than he wants to know about the forces behind the assassinations, and finds himself in a maze with no way out.

In Thailand, Samantha Cataranes has found peace and contentment with a group of children born with Nexus in their brains. But when forces threaten to tear her new family apart, Sam will stop at absolutely nothing to protect the ones she holds dear.

In Vietnam, Kade and Feng are on the run from bounty hunters seeking the price on Kade's head, from the CIA, and from forces that want to use the back door Kade has built into Nexus 5. Kade knows he must stop the terrorists misusing Nexus before they ignite a global war between human and posthuman. But to do so, he'll need to stay alive and ahead of his pursuers.

And in Shanghai, a posthuman child named Ling Shu will go to dangerous and explosive lengths to free her uploaded mother from the grip of Chinese authorities.

The first blows in the war between human and posthuman have been struck. The world will never be the same.

Editorial Review

From [Booklist](#)

Naam's follow-up to his sterling debut, *Nexus* (2013), continues the story of Kaden Lane, creator of a revolutionary mind-linking software called Nexus. Set about six months after the first novel, this one is at least as action-packed, but with its political commentary and dystopian elements ratcheted to higher levels. The author briskly catches us up with the characters introduced in *Nexus*; Kade is on the run, trying to find his friends Ilya and Rangan, who are being held captive by the American government; Su-Yong, the Chinese expert on transhumanism, exists now as a "software being," her mind uploaded to a computer after the death of her body; and the agents of the ERD (Emergent Risks Directorate) are desperate to find the source of Nexus and to eliminate the software once and for all. Meanwhile, the Post-Human Liberation Front is using Nexus to turn ordinary people into assassins, threatening to throw the world's governments into chaos. The book would have benefited from a "previously on . . ." style prologue to remind readers of the story and world introduced in *Nexus*; those unfamiliar with that book will be utterly lost here (especially when it comes to the software itself). Those who've read the first book, though, should have no trouble picking up where they left off. A strong, exciting, and intellectually stimulating sequel. --David Pitt

Review

A strong, exciting, and intellectually stimulating sequel.

--David Pitt, *Booklist*

Praise for the *Nexus* series:

"Good. Scary good."

- *Wired*

"Provocative... A double-edged vision of the post-human."

- *The Wall Street Journal*

"A lightning bolt of a novel, with a sense of awe missing from a lot of current fiction."

- *Ars Technica*

"Starred Review. Naam turns in a stellar performance in his debut SF novel... What matters here is the remarkable scope and narrative power of the story."

- *Booklist*

"A superbly plotted high-tension technothriller ... full of delicious, thoughtful moral ambiguity ... a hell of a read."

- Cory Doctorow

"A gripping piece of near future speculation... all the grit and pace of the Bourne films."

- Alastair Reynolds, author of *Revelation Space*

"A sharp, chilling look at our likely future."

- Charles Stross, author of *Singularity Sky* and *Halting State*

"The most brilliant hard SF thriller I've read in years. Reminds me of Michael Crichton at his best."

- Brenda Cooper, author of *The Creative Fire*

"A rich cast of characters...the action scenes are crisp, the glimpses of future tech and culture are mesmerizing."

- Publishers Weekly

About the Author

Ramez Naam is a professional technologist, and was involved in the development of Microsoft Internet Explorer and Outlook. He holds a seat on the advisory board of the Institute for Accelerating Change, is a member of the World Future Society, a Senior Associate of the Foresight Institute, and a fellow of the Institute for Ethics and Emerging Technologies.

His non-fiction book *More Than Human* won the H.G. Wells Award.

His novels has been nominated for the Kitscic Award for Best Debut, the Prometheus Award, and the Arthur C. Clarke Award. He is a 2014 nominee for the John W. Campbell Award for Best New Writer.

From the Trade Paperback edition.

Users Review

From reader reviews:

Christopher Patton:

Do you certainly one of people who can't read gratifying if the sentence chained in the straightway, hold on guys this aren't like that. This *Crux: Nexus Arc Book 2* book is readable simply by you who hate the straight word style. You will find the facts here are arrange for enjoyable reading through experience without leaving also decrease the knowledge that want to give to you. The writer associated with *Crux: Nexus Arc Book 2* content conveys prospect easily to understand by many people. The printed and e-book are not different in the written content but it just different by means of it. So , do you continue to thinking *Crux: Nexus Arc Book 2* is not loveable to be your top listing reading book?

Thelma Scott:

Do you have something that that suits you such as book? The guide lovers usually prefer to choose book like comic, quick story and the biggest the first is novel. Now, why not seeking *Crux: Nexus Arc Book 2* that give your entertainment preference will be satisfied simply by reading this book. Reading behavior all over the world can be said as the way for people to know world considerably better then how they react when it comes to the world. It can't be said constantly that reading addiction only for the geeky individual but for all of you who wants to end up being success person. So , for all of you who want to start looking at as your good habit, you could pick *Crux: Nexus Arc Book 2* become your personal starter.

Paul Mackey:

This *Crux: Nexus Arc Book 2* is great reserve for you because the content that is full of information for you

who have always deal with world and get to make decision every minute. This specific book reveal it information accurately using great manage word or we can declare no rambling sentences in it. So if you are read that hurriedly you can have whole data in it. Doesn't mean it only offers you straight forward sentences but tough core information with wonderful delivering sentences. Having Crux: Nexus Arc Book 2 in your hand like keeping the world in your arm, facts in it is not ridiculous one particular. We can say that no book that offer you world inside ten or fifteen moment right but this e-book already do that. So , this really is good reading book. Hi Mr. and Mrs. active do you still doubt this?

Maurice Neely:

As a scholar exactly feel bored to reading. If their teacher requested them to go to the library as well as to make summary for some publication, they are complained. Just minor students that has reading's heart and soul or real their interest. They just do what the teacher want, like asked to the library. They go to right now there but nothing reading seriously. Any students feel that examining is not important, boring and can't see colorful images on there. Yeah, it is to become complicated. Book is very important for you. As we know that on this period of time, many ways to get whatever we would like. Likewise word says, many ways to reach Chinese's country. Therefore , this Crux: Nexus Arc Book 2 can make you really feel more interested to read.
