Handbook of Spine Surgery From Thieme

Handbook of Spine Surgery, Second Edition, is a completely updated and comprehensive reference that distills the basic principles of contemporary spine surgery. Its coverage of both principles and techniques makes it an excellent refresher before surgery or a valuable daily companion for residents and surgeons caring for patients with spinal disorders.

Key Features of the Second Edition:

- New chapters on adult degenerative deformity, pediatric scoliosis and radiographic principles of deformity
- Expanded spinal trauma section now includes separate chapters on cervical, thoracolumbar, and sacropelvic injuries
- Common clinical questions (with answers) at the end of each chapter highlight topics frequently encountered in the operating room and on board exams
- Easy-to-read bulleted format

The second edition of this handbook is the go-to guide for all those involved in spine surgery.

Users Review

From reader reviews:

Elizabeth Brock:

What do you about book? It is not important along? Or just adding material when you want something to explain what yours problem? How about your time? Or are you busy person? If you don't have spare time to try and do others business, it is make one feel bored faster. And you have free time? What did you do? Every person has many questions above. They have to answer that question simply because just their can do this. It said that about book. Book is familiar in each person. Yes, it is right. Because start from on guardería until university need this specific Handbook of Spine Surgery to read.

George Hinnenkamp:

This Handbook of Spine Surgery book is not ordinary book, you have it then the world is in your hands. The benefit you have by reading this book is usually information inside this e-book incredible fresh, you will get data which is getting deeper you read a lot of information you will get. This specific Handbook of Spine Surgery without we comprehend teach the one who reading it become critical in pondering and analyzing. Don't be worry Handbook of Spine Surgery can bring once you are and not make your carrier space or bookshelves' turn into full because you can have it inside your lovely laptop even telephone. This Handbook of Spine Surgery having fine arrangement in word in addition to layout, so you will not experience uninterested in reading.

Jose Rosales:

This Handbook of Spine Surgery is great guide for you because the content which is full of information for

you who else always deal with world and get to make decision every minute. That book reveal it facts accurately using great organize word or we can declare no rambling sentences inside it. So if you are read the item hurriedly you can have whole details in it. Doesn't mean it only will give you straight forward sentences but tricky core information with lovely delivering sentences. Having Handbook of Spine Surgery in your hand like finding the world in your arm, info in it is not ridiculous just one. We can say that no guide that offer you world within ten or fifteen tiny right but this book already do that. So , it is good reading book. Hi Mr. and Mrs. active do you still doubt which?

Jessica Bradburn:

What is your hobby? Have you heard this question when you got learners? We believe that that question was given by teacher to the students. Many kinds of hobby, All people has different hobby. And you also know that little person similar to reading or as reading become their hobby. You have to know that reading is very important as well as book as to be the thing. Book is important thing to increase you knowledge, except your personal teacher or lecturer. You will find good news or update concerning something by book. A substantial number of sorts of books that can you take to be your object. One of them is niagra Handbook of Spine Surgery.
