Editorial Review

From the Back Cover

This well-established international series examines major areas of basic and clinical research within neuroscience, as well as emerging and promising subfields. This volume explores the history and modern perspective on Neurology and Neuroscience.

About the Author

François Boller, M.D., Ph.D. has been co-Series Editor of the Handbook of Clinical Neurology since 2002. He is a board-certified neurologist currently Professor of Neurology at the George Washington University Medical School (GW) in Washington, DC. He was born in Switzerland and educated in Italy where he obtained a Medical Degree at the University of Pisa. After specializing in Neurology at the University of Milan, Dr. Boller spent several years at the Boston VA and Boston University Medical School, including a fellowship under the direction of Dr. Norman Geschwind. He obtained a Ph.D. in Experimental Psychology from Case Western Reserve University in Cleveland, Ohio where he was in charge of Neuroscience teaching at the Medical School and was nominated Teacher of the Year. In 1983, Dr. Boller became Professor of Neurology and Psychiatry at the University of Pittsburgh where he founded and directed one of the first NIH funded Alzheimer Disease Research Centers in the country. In 1989, he was put in charge of a Paris-based INSERM Unit dedicated to the neuropsychology and neurobiology of cerebral aging. He returned to the United States and joined the NIH in 2005, before coming to GW in July 2014.

Dr. Boller's initial area of interest was aphasia and related disorders; he later became primarily interested in cognitive disorders and dementia with emphasis on the correlates of cognitive disorders with pathology, neurophysiology and imaging. He was one of the first to study the relation between Parkinson and Alzheimer disease, two processes that were thought to be unrelated. His current area of interest is Alzheimer's disease and related disorders with emphasis on the early and late stages of the disease. He is also interested in the history of Neurosciences and is Past President of the International Society for the History of Neurosciences. He was the founding Editor-in-Chief of the European Journal of Neurology, the official Journal of the European Federation of Neurological Societies (now European Academy of Neurology). He is a Fellow of the American Academy of Neurology and a member of the American Neurological Association. In addition, he has chaired Committees within the International Neuropsychological Society, the International Neuropsychology Symposium, and the World Federation of Neurology (WFN). He has authored over 200 papers and books including the Handbook of Neuropsychology (Elsevier).

Users Review

From reader reviews:

George Marsh:

Why don't make it to be your habit? Right now, try to prepare your time to do the important action, like looking for your favorite guide and reading a guide. Beside you can solve your problem; you can add your knowledge by the e-book entitled The Fine Arts, Neurology, and Neuroscience: Neuro-Historical

Dimensions (Progress in Brain Research). Try to the actual book The Fine Arts, Neurology, and Neuroscience: Neuro-Historical Dimensions (Progress in Brain Research) as your good friend. It means that it can to get your friend when you really feel alone and beside those of course make you smarter than before. Yeah, it is very fortunated in your case. The book makes you a lot more confidence because you can know every little thing by the book. So , let's make new experience along with knowledge with this book.

Harriet Blum:

The book The Fine Arts, Neurology, and Neuroscience: Neuro-Historical Dimensions (Progress in Brain Research) can give more knowledge and also the precise product information about everything you want. Why then must we leave the great thing like a book The Fine Arts, Neurology, and Neuroscience: Neuro-Historical Dimensions (Progress in Brain Research)? A number of you have a different opinion about reserve. But one aim that will give many info for us. It is absolutely appropriate. Right now, try to closer together with your book. Knowledge or information that you take for that, it is possible to give for each other; you are able to share all of these. Book The Fine Arts, Neurology, and Neuroscience: Neuro-Historical Dimensions (Progress in Brain Research) has simple shape but the truth is know: it has great and big function for you. You can appear the enormous world by available and read a book. So it is very wonderful.

Lela Koehn:

Book is to be different for each and every grade. Book for children until finally adult are different content. To be sure that book is very important normally. The book The Fine Arts, Neurology, and Neuroscience: Neuro-Historical Dimensions (Progress in Brain Research) ended up being making you to know about other knowledge and of course you can take more information. It is very advantages for you. The publication The Fine Arts, Neurology, and Neuroscience: Neuro-Historical Dimensions (Progress in Brain Research) is not only giving you far more new information but also to be your friend when you experience bored. You can spend your personal spend time to read your publication. Try to make relationship while using book The Fine Arts, Neurology, and Neuroscience: Neuro-Historical Dimensions (Progress in Brain Research). You never feel lose out for everything if you read some books.

Adam Cuyler:

The guide untitled The Fine Arts, Neurology, and Neuroscience: Neuro-Historical Dimensions (Progress in Brain Research) is the book that recommended to you you just read. You can see the quality of the publication content that will be shown to anyone. The language that creator use to explained their ideas are easily to understand. The article writer was did a lot of analysis when write the book, to ensure the information that they share to you personally is absolutely accurate. You also might get the e-book of The Fine Arts, Neurology, and Neuroscience: Neuro-Historical Dimensions (Progress in Brain Research) from the publisher to make you more enjoy free time.
