### Editorial Review

#### Review

A thoughtful book, laden with insight, at the ways in which a new India is being written and read. -- Namita Gokhale, Writer, publisher and co-director of the Jaipur Literature Festival Reading New India provides a much needed and timely introduction to postmillennial India and Indian English literature within India as they move beyond the postcolonial past and forward into 'Newness'. Transnational Literature The splendor and the misery of Reading New India is that it whets the appetite for the fiction it introduces but necessarily fails to satiate the appetite thus awakened. LSE Review of Books Varughese's book is a gift for academics teaching Indian writing in English. And perhaps it will outshine all other books in the 'academic' library with its lively and pulpy, Karan Joharesque cover of bright yellow and pink. The Book Review India This is an ambitious and novel project, strenuous though, considering the vast body of literature to be considered. And [Dawson] has done it with a sense of academic objectivity. Reading New India: Post-Millennial Fiction in English - "the first book to focus on fiction at the millennium, the crossroad for India's globalisation" - is not a critique or a collection of reviews of individual novels or a generalised assessment of the oeuvre of individual writers, but a representation of various trends, themes, motifs, lineaments, zeitgeist, dynamic & conflicting cultural mores & values informing the fiction in hand, and an analysis of the core themes of some of the individual typical novels written in different voices. The Hans India The book is racy, giving you a smooth ride peppered with Indian exotica. You can't stop once you hold it in hands. It is a thorough work in itself. And who says, you get to know a place by reading its history and sociology only. Varughese fulfills it through her literary sojourn as well in an impeccable manner. Besides literary archives, you could place it in tourism section also to show the new rising India, in a big stroke. -- Zafar Anjum Kitaab Review

Occasionally there's a book that catches the eye and this expose of post-millennial Indian fiction in English is no exception ... An experienced field researcher of world literature in English, Emma Dawson Varughese has put some painstaking work into her research describing how Indian fiction has moved beyond notions of 'postcolonial' writing to reveal progressively self-assured and varied cultures. -- Rama Gaiind PS News [T]his book marks important new interventions into the classification of contemporary Indian literature as moving away from a postcolonial paradigm that axiomatically centralizes the impact of British colonization as the defining Indian legacy. The strengths of the work undoubtedly lie in its ability to identify and delineate new and evolving trends in literature backed up by detailed close readings of selected novels. Furthermore, though the preface envisions the readership as predominantly Indian, a glossary of terms, a timeline, and author biographies open it up to a wider readership, and it will undoubtedly prove to be a useful resource for countless students of contemporary Indian literature. -- Sarah Ilott, Lancaster University, UK Interventions
