**Apparel Production Management and the Technical Package** By Paula J. Myers-McDevitt

In today's global apparel industry, garments that are designed domestically are often manufactured overseas. The technical package, a series of forms that define a garment's specifications, is critical to ensuring that a particular style is executed correctly and in the most cost- and time-efficient manner possible. *Apparel Production Management and the Technical Package* presents the basics of production management and provides clear instructions for creating each component of a production package.
